

ECO FRIENDLY GREEN SOCKS

INTER MARKET KNIT (PVT) LTD

loom

Vision Towards Sustainability

- To be aware of our contribution towards the environment and adopt responsible practices for its protection
- Effective utilization of resources to ensure energy and water conservation
- Use of organic and biodegradable raw materials to create eco-friendly products

Our Sustainable Product Line

Responsible Sourcing

- Made from 100% Organic Cotton
- Fibers sourced from certified suppliers
- Raw materials free from chemical fertilizers and pesticides

Reduced Water Consumption

- 88% less water consumed for washing as compared to a normal wash
- Reduced washing cycles due to the use of anti odor technology
- Reduced washes make the product long lasting and durable

loom

Recycling and Upscaling

- Green socks use organic cotton that is grown organically (CHEMICAL FREE) and can be recycled back into fibers.
- Packing box made of 100% recycled paper and can be upscaled and reused
- Biodegradable raw material and packing box allows clean disposal
